

## ORDERING INFORMATION

*Thank you for thinking of ordering from us. We naturally prefer customers to come and visit us; there is nothing better than seeing the plant you are wishing to buy growing in a garden and understanding its habit and requirements. However, we do understand that, for many people, despite us being so central and close to the A1, this is not possible. We therefore put a lot of effort into making our mail order as painless as possible, but we are not the Amazon of the plant world!*

*We are still rather old fashioned and do not accept credit cards, all orders to be accompanied by a cheque please. Please also accept that our plants are propagated with the seasons and once sold out for a year we have to wait for the cycle to come round again. A few alternatives really does help and we try to be generous. We have a minimum order of £20 excluding postage and packing.*

*We send out plants from mid to late spring and mid to late autumn, this is weather dependent so email or phone for advice if unsure. The plants are sent out in pots, not bare rooted, and many are flowering size; rarer and slow growing plants may be smaller. Postage is charged at cost and after much experimentation we use an excellent local courier service which offers next day delivery for £11.00. We know it's a lot of money but pots are heavy. If you have a small order (5 pots or less) and the plants are not actively growing you can risk the Royal Mail: this unguaranteed service delivers within 3-5 days for £8.50.*

*Your cheque will not be cashed until the order is ready.*

*Send your order to:*

**Norwell Nurseries, Woodhouse Road, Norwell, Notts. NG23 6JX.**
